

Please complete the following table with what you believe to be the percentage that each member of your team, including yourself, has contributed to these delivery cycles. They should **add up to 100%**

Student ID	Me and Team member name	Contribution %
32874561	Fereshteh Eidisiahpoosh	25%
32585748	Seungjae Lee	25%
32940122	Pranav Bijapur	50%

Please detail **YOUR TEAM's** specific contribution to your implementation below:

1. Overview

Please describe how team works in general, any conflict or any way you approach the conflict:

We worked as a team. If we had a conflict in our opinions about the way we are progressing, we would opt to resolve it in an intricate discussion during an in person meeting.

2. Classes and functions done by each member of your team

(Please write out all classes and functions names by each member of your team)

Seungjae Lee → login class ,display_main_menu function,
display_welcome_screen function, display_login_screen function, Detailed class
diagram

Pranav →Boundary Class:everything except display main , welcome screen, Control Class: everything except login,recently viewed ads, Item Class :Accessor and Mutator functions , Customer Class:Accessor and Mutator functions , Service Class:Accessor and Mutator functions, Advertisement Class: Accessor and Mutator functions.

Fereshteh Eidisiahpoosh →Recently_Viewed_Ads class, show_menu function function,show_menu_ads function ,show_last_three_days function, Detailed class diagram

3. Have you participate in writing user instructions? If you have, please share which section you have done and how much time you spent working on this in total

Seungjae Lee -> Installation Guidelines, Manual, Troubleshooting (Takes 4hours)

4. Other (anything not covered in the previous sections)

We use from feedback of initial class diagram to cover the detailed class diagram
